

RoHS / Green Compliant Parts / EMAS

[For a List of EU, China RoHS, REACH and Green \(Halogen & Antimony Free\) Parts](#)

Our focus is to use environmentally friendly procedures and technologies with the objective of saving resources considerably and minimizing the environmental burden. Whether it is raw materials or energy – we use it as efficiently as possible. DZNG was validated according to EMAS in 2015. Since 2006 we are certificated in accordance with DIN EN ISO 14001.

To continuously improve environmental protection, our company formulates specific environmental goals and states the means and measures to achieve them. In the annual environmental statement, we present our environmental performance and impacts and make this accessible to the public.

Our environmental statement can be requested by email: dzng@eu.diodes.com.
